The status of the claims is as follows:

Claims 1-9 (claim 9 newly added) is herein addressed below.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Waltz et al. (5,902,004). Waltz et al. (5,902,004) disclose a functional unit (3) in combination with a vehicle door (1) comprising a lock assembly (32, 33, and 6) connected to a motor (38) which drives a window pane (100) between an open and closed position within the vehicle door (1), a coupling means (900, 61, and 39, see figure 1) to selectively actuate the door lock assembly (32, 33, and 6) via the motor (38), and a handle (inside 6, outside 8) connected to the coupling means to engage and disengage the lock assembly to a strike plate (111).

Depending on the applicant's amendments, claims 5-7 and 9 would be allowable if rewritten to include all of the limitations of the base claim and any intervening claims.

The applicant's arguments have been considered but are not deemed persuasive. It appears that the applicant's arguments are more limiting than that of the claims. The applicant states the all of the elements of the instant invention is not shown

Art Unit: 3634

by Waltz et al. The applicant is correct if all of the elements of the applicant's instant claim were positively recited. But, in the claims current form, the art still reads on the claims of record because phraseology such as "for..." and "can be..." fails to positively recite the claimed invention.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
